About **Ouriginal** Integration with ITSlearning

Urkund can be added to an institutional LMS through an LTI integration or API plugin. The integration allows the institution Admin User(s) access to the Ouriginal tool features through their LMS without having to make changes to the LMS properties. ITSlearning institutional Admin User(s) can add the Ouriginal tool to their ITSlearning platform, making it available to instructors as a preconfigured tool for their courses.

Creating an Assignment with Ouriginal

Creating an assignment with the Ouriginal tool is very simple.

Begin by going to your course and selecting the Add button in the upper right-hand side of your screen. Open the drop-down menu and select Assignment.
